# Labour market statistics

July 2011

**Date:** 13 July 2011

Coverage: United Kingdom Theme: Labour Market

The employment rate was 70.7 per cent and there were 29.28 million employed people.

The unemployment rate was 7.7 per cent and there were 2.45 million unemployed people.

The inactivity rate was 23.2 per cent and there were 9.33 million inactive people aged from 16 to 64.

Total pay (including bonuses) rose by 2.3 per cent on a year earlier.

Regular pay (excluding bonuses) rose by 2.1 per cent on a year earlier.

#### Headline labour market indicators (seasonally adjusted), March to May 2011

	Numbe	er of people (thousands)	Rates (percentages)		
Labour Force Survey indicators (United Kingdom)	Latest Change since December estimate 2010 to February 2011		Latest estimate	Change since December 2010 to February 2011	
Number in employment (aged 16+) and rate (aged 16 to 64)	29,279	50	70.7	0.0	
Unemployment (aged 16+)	2,452	-26	7.7	-0.1	
Inactivity (aged 16 to 64)	9,329	32	23.2	0.1	

Average Weekly Earnings	Average weekly pay for May 2011	Annual growth rate: percentage change
(Great Britain)	(£ sterling)	between Mar-May 2010 and Mar-May 2011
Total pay (including bonuses)	461	2.3
Regular pay (excluding bonuses)	434	2.1

#### For June 2011:

The number of people claiming Jobseeker's allowance (the Claimant count) was 1.52 million.

#### Claimant count (seasonally adjusted), June 2011

	Number of pe	ople (thousands)	Rates (percentages)		
Jobseeker's allowance claimants	Latest estimate	Change since May 2011	Latest estimate	Change since May 2011	
(United Kingdom, aged 18+)	1,520.1	24.5	4.7	0.1	

#### Summary of labour market statistics published on 13 July 2011

A video explaining this story is available on the ONS You Tube channel at: http://www.youtube.com/user/onsstats

The unemployment rate for the three months to May 2011 was 7.7 per cent of the economically active population, down 0.1 on the quarter. The total number of unemployed people fell by 26,000 over the quarter to reach 2.45 million. The number of people unemployed for up to one year increased by 11.000 over the guarter to reach 1.64 million. The number of people unemployed for over one year fell by 37,000 to reach 807,000. The quarterly fall in unemployment occurred mainly among people aged from 16 to 24. The number of unemployed people in this age group fell by 42,000 over the quarter to reach 917,000.

The inactivity rate for those aged from 16 to 64 for the three months to May 2011 was 23.2 per cent, up 0.1 on the quarter. The number of economically inactive people aged from 16 to 64 increased by 32,000 over the quarter to reach 9.33 million. This increase in inactivity was mainly due to an increase of 41,000 in the number of students not active in the labour market to reach 2.27 million. The total number of 16 to 24 year olds in full-time education increased by 35,000 on the quarter to reach 3.06 million. The number of people in this age group not in full-time education fell by 42,000 to reach 4.26 million.

The **employment rate** for those aged from 16 to 64 for the three months to May 2011 was 70.7 per cent, unchanged on the quarter. The number of people in employment aged 16 and over increased by 50,000 on the quarter and by 309,000 on the year to reach 29.28 million. The number of people in employment is 293,000 lower than the pre-recession peak of 29.57 million recorded for the three months to May 2008. The number of employees and self-employed people working parttime because they could not find a full-time job increased by 80,000 on the quarter to reach 1.25 million, the highest figure since comparable records began in 1992.

There were 1.52 million people claiming **Jobseeker's Allowance** (JSA) in June 2011, up 24,500 on May. The number of men claiming JSA increased by 15,000 to reach 1.03 million and the number of women claimants increased by 9,500 to reach 493,900, the highest figure since August 1996.

In the three months to May 2011, 144,000 people had become redundant in the three months before the Labour Force Survey interviews, up 16,000 over the quarter. This increase in redundancies occurred mainly among women.

The whole economy earnings annual growth rate for total pay (including bonuses) was 2.3 per cent for the three months to May 2011, up from 2.0 per cent for the three months to April. The whole economy earnings annual growth rate for regular pay (excluding bonuses) was 2.1 per cent for the three months to May 2011, up from 2.0 per cent for the three months to April. These increases in the growth rates for total pay and regular pay were driven by the private sector.

#### **Detailed Commentary**

#### **Employment (Tables 2 to 4, and 8)**

The employment rate for those aged from 16 to 64 was 70.7 per cent in the three months to May 2011, unchanged on the three months to February 2011 but up 0.2 percentage points from a year earlier.

The employment rate for men aged from 16 to 64 was 75.9 per cent, up 0.1 percentage point on the previous guarter. The corresponding employment rate for women was 65.5 per cent, unchanged on the previous quarter.

The number of people in employment was 29.28 million in the three months to May 2011, up 50,000 from the three months to February 2011 and up 309,000 on a year earlier. The number of people in full-time employment was 21.32 million in the three months to May 2011, up 19,000 from the three months to February 2011. Of this total, 13.66 million were men and 7.66 million were women. The number of people in part-time employment was 7.96 million in the three months to May 2011, up 31,000 from the three months to February 2011. Of this total, 2.05 million were men and 5.91 million were women.

The number of people in public sector employment was 6.16 million in March 2011, down 24,000 from December 2010. The estimate for March 2011 includes 15,000 people employed on a

temporary basis in connection with the 2011 Census. Excluding temporary Census employment there were 6.15 million people employed in the public sector in March 2011, down 39,000 from December 2010. The number of people in private sector employment in March 2011 was 23.08 million, up 104,000 from December 2010.

#### Employment by country of birth and nationality (not seasonally adjusted), tables 8 & 8(1)

ONS publishes estimates of employment by both country of birth and by nationality. The number of non-UK born people in employment is greater than the number of non-UK nationals in employment, as the non-UK born series includes many UK nationals. The estimates relate to the number of people in employment rather than the number of jobs. These statistics have sometimes been incorrectly interpreted as indicating the proportion of new jobs that are taken by foreign migrants.

The number of UK born people in employment was 25.09 million in the three months to March 2011, up 77,000 on a year earlier. The number of non-UK born people in employment was 4.04 million, up 334,000 from a year earlier.

The employment rate for UK born people aged from 16 to 64 was 71.0 per cent in the three months to March 2011, up 0.3 percentage points on a year earlier. The corresponding employment rate for non-UK born people was 67.3 per cent, up 1.6 percentage points on a year earlier.

The number of UK nationals in employment was 26.64 million in the three months to March 2011, up 177,000 on a year earlier. The number of non-UK nationals in employment was 2.50 million, up 239,000 from a year earlier.

The employment rate for UK nationals aged from 16 to 64 was 70.7 per cent in the three months to March 2011, up 0.3 percentage points on a year earlier. The corresponding employment rate for non-UK nationals was 67.8 per cent, up 2.2 percentage points on a year earlier.

#### Jobs (tables 5 & 6)

There were 31.35 million workforce jobs in March 2011, up 121,000 over the guarter and up 113,000 on a year earlier. The sector showing the largest increase in jobs over the quarter was information and communication which increased by 50,000 to reach 1.19 million.

#### Actual hours worked (table 7)

Total hours worked per week were 911.0 million in the three months to May 2011, down 18.6 million from the three months to February 2011. Average weekly hours worked in the three months to May 2011 were 31.2, down 0.7 from the three months to February 2011. The quarterly falls in the estimates of total hours worked and average weekly hours were partly due to an additional public holiday on 29 April 2011 (for the Royal Wedding) which occurred four days after the Easter Monday public holiday.

#### **Unemployment (table 9)**

The unemployment rate was 7.7 per cent in the three months to May 2011, down 0.1 percentage point from the three months to February 2011 and from a year earlier. Unemployment rates are calculated, in accordance with international guidelines, as the percentage of all economically active people in the relevant population group.

The number of unemployed people was 2.45 million in the three months to May 2011, down 26,000 from the three months to February 2011 and down 23,000 from a year earlier. The number of unemployed men was 1.43 million in the three months to May 2011, down 15,000 from the three months to February 2011. The number of unemployed women was 1.03 million in the three months to May 2011, down 10,000 from the three months to February 2011. The number of people unemployed for over one year was 807,000 in the three months to May 2011, down 37,000 from the three months to February 2011. The number of people unemployed for over two years was 384,000 in the three months to May 2011, up 15,000 from the three months to February 2011.

#### Youth unemployment (Table 14)

The unemployment rate for 16 to 24 year olds was 19.7 per cent of the economically active population in the three months to May 2011, down 0.7 percentage points from the three months to February 2011. There were 917,000 unemployed 16 to 24 year olds in the three months to May 2011, down 42,000 from the three months to February 2011.

The number of unemployed 16 to 17 year olds decreased by 16,000 on the quarter to reach 202,000 and the number of unemployed 18 to 24 year olds fell by 26,000 on the quarter to reach 715,000.

In accordance with international guidelines, people in full-time education are included in the youth unemployment estimates if they are looking for employment and are available to work. Excluding people in full-time education, there were 644,000 unemployed 16 to 24 year olds in the three months to May 2011, down 18,000 from the three months to February 2011. The unemployment rate for 16 to 24 year olds not in full-time education was 18.2 per cent of the economically active population, down 0.4 percentage points from the three months to February 2011.

#### **Claimant Count (tables 10 and 11)**

The claimant count in June 2011 was 1.52 million, up 24,500 on the previous month and up 50,900 on a year earlier. The claimant count rate was 4.7 per cent, up 0.1 percentage point on the previous month and up 0.2 percentage points from a year earlier. A comparison between the claimant count (which measures the number of people claiming Jobseeker's Allowance) and unemployment (which measures people who meet the internationally agreed definition of unemployment) is available from the Labour Market Overview at: http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=1944

#### Economic Inactivity (tables 1, 13 and 14)

The economic inactivity rate for those aged from 16 to 64 was 23.2 per cent in the three months to May 2011, up 0.1 percentage point from the three months to February 2011 but down 0.1 percentage point from a year earlier. The number of economically inactive people aged from 16 to 64 rose by 32,000 over the quarter but fell by 11,000 over the year, to reach 9.33 million in the three months to May 2011.

#### **GB** average earnings (tables 15 to 16)

#### Whole economy earnings

Average total pay (including bonuses) was £461 per week in May 2011. In the three months to May 2011 total pay rose by 2.3 per cent on a year earlier, up 0.3 from the three months to April.

Average regular pay (excluding bonuses) was £434 per week in May 2011. In the three months to May 2011 regular pay rose by 2.1 per cent on a year earlier, up 0.1 from the three months to April.

#### Private sector earnings

Average total pay (including bonuses) in the private sector was £456 per week in May 2011. In the three months to May 2011 total pay in the private sector rose by 2.2 per cent on a year earlier.

Average regular pay (excluding bonuses) in the private sector was £424 per week in May 2011. In the three months to May 2011 regular pay in the private sector rose by 2.1 per cent on a year earlier.

#### Public sector earnings

Average total pay (including bonuses) in the public sector was £464 per week in May 2011. In the three months to May 2011 total pay in the public sector rose by 2.1 per cent on a year earlier. Average total pay in the public sector, excluding financial services, was £456 per week in May 2011. In the three months to May 2011 total pay in the public sector, excluding financial services, rose by 1.9 per cent on a year earlier.

Average regular pay (excluding bonuses) in the public sector was £470 per week in May 2011. In the three months to May 2011 regular pay in the public sector rose by 2.3 per cent on a year earlier. Average regular pay in the public sector, excluding financial services, was £463 per week in May 2011. In the three months to May 2011 regular pay in the public sector, excluding financial services, rose by 2.0 per cent on a year earlier.

#### Productivity and unit wage costs (table 17)

Whole economy output per worker was 0.3 per cent higher in the first quarter of 2011 compared with a year earlier. Whole economy unit wage costs rose by 0.6 per cent over the same period.

#### Labour disputes (table 20)

In May 2011, there were 11,000 working days lost from 20 stoppages. In the twelve months to May 2011, there were 152,000 working days lost from 112 stoppages.

#### Vacancies (tables 21 to 22)

There were 458,000 job vacancies in the three months to June 2011, down 26,000 on both the three months to March 2011 and on a year earlier. The estimates for the three months to March 2011 include 19,000 vacancies for temporary jobs in connection with the 2011 Census but there were no such vacancies in the three months to June 2011. Excluding these Census vacancies, there was a fall of 7,000 vacancies between the three months to March and the three months to June.

There were 1.7 vacancies per 100 employee jobs in the three months to June 2011, down 0.1 on both the previous quarter and the year.

#### Redundancies (tables 23 and 24)

In the three months to May 2011, 144,000 people had become redundant in the three months before the Labour Force Survey interviews, up 16,000 from the three months to February 2011 but down 15,000 from a year earlier. The redundancy rate was 5.7 per 1,000 employees, up 0.6 from the previous quarter but down 0.7 from a year earlier.

#### Key out of work benefits (table 25)

In November 2010 the number of people claiming key out of work benefits (not seasonally adjusted) was 4.78 million, down 236,000 from November 2009.

#### **Background Notes**

#### This month's Statistical Bulletin

1. There are no major developments in this month's Statistical Bulletin.

#### Next month's Statistical Bulletin

2. On 30 June 2011 ONS published the 2010 mid-year population estimates for the UK. These population estimates will be used as new denominators for the key out of work benefit proportions shown at Table 25, resulting in revisions to these estimates from February 2010 onwards.

#### **Experimental statistics**

3. Experimental statistics are those which are in the testing phase and are not yet fully developed. Estimates of lone parent claimants of Jobseeker's Allowance, published at Table 10(1), are the only series in this Statistical Bulletin designated as experimental statistics. Further information on experimental statistics can be found on the website at: http://www.statistics.gov.uk/cci/nugget.asp?id=173

#### **Quality reporting**

- 4. A Summary Quality Report for this Statistical Bulletin can be found on the website at: http://www.statistics.gov.uk/cci/article.asp?ID=1354
- 5. One indication of the reliability of the key indicators in this Statistical Bulletin can be obtained by monitoring the size of revisions. The tables below record the size and pattern of revisions over the last five years. These indicators only report summary measures for revisions. The revised data itself may be subject to sampling or other sources of error. The ONS standard presentation is to show five years worth of revisions (60 observations for a monthly series, 20 for a quarterly series).
- 6. The table below covers Unemployment and Claimant Count data first published from August 2005 to July 2010. The employment rate revisions material shown in this table relate to the old working age employment rate which, since August 2010, has no longer been published in this Statistical Bulletin and it covers data first published from August 2004 to July 2009. It is not currently possible to produce revisions analysis for the employment rate for those aged from 16 to 64 as this is a new series published for the first time in August 2010. ONS will publish such an analysis once sufficient data allows.

Key Indicator	Value in latest	Number of observations	Revisions between first publication and estimates or year later		
	period	(maximum 60)	Average over the last five years (mean revision)	Average over the last five years without regard to sign (average absolute revision)	
Employment rate (%)	70.7	60	0.00 (percentage points)	0.04 (percentage points)	
Unemployment rate (%)	7.7	60	0.02 (percentage points)	0.03 (percentage points)	
Claimant count (thousands)	1520.1	60	0.20 (thousands)	5.29 (thousands)	

A statistical test has been applied to the average revision to find out if the mean revision is statistically significantly different from zero; this is indicated by an asterisk (\*) in the above tables.

The table below covers Workforce Jobs data first published from September 2003 to June 2008.

Key Indicator	Value in latest	Number of observations	Revisions between first publication and estimates three years later (thousands)		
	period	(maximum 20)	Average over the last three years (mean revision)	Average over the last three years without regard to sign (average absolute revision)	
Workforce jobs (thousands)	31.354	20	283.3	325.7	

A statistical test has been applied to the average revision to find out if the mean revision is statistically significantly different from zero; this is indicated by an asterisk (\*) in the above tables.

Spreadsheets giving revisions triangles of estimates and the calculations behind the averages in the tables are available on the National Statistics website at:

http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=1944

- 7. Labour market statistics are revised in line with the revisions policy, which is on the website at: http://www.statistics.gov.uk/about/Methodology\_by\_theme/downloads/LM\_revisionspolicy.pdf
- 8. More information about the revisions material in this Statistical Bulletin can also be found on the website at: http://www.statistics.gov.uk/cci/article.asp?ID=793

#### Sampling variability of Labour Force Survey estimates

The tables below show sampling variabilities, calculated on not seasonally adjusted data, for 9. the Labour Force Survey. These sampling variability ranges represent '95 per cent confidence intervals'. It is expected that in 95 per cent of samples the range would contain the true value.

#### Sampling variability of Labour Force Survey estimates: March to May 2011

	Level	Sampling variability of level	Change on quarter	Sampling variability of change on quarter	Change on year	Sampling variability of change on year
Employment (000s, aged 16+ )	29,279	± 159	50	± 135	309	± 211
Employment rate (aged 16-64)	70.7%	± 0.4	0.0	± 0.3	0.2	± 0.5
Average weekly hours	31.2	± 0.2	-0.7	± 0.2	-0.4	± 0.2
Unemployment (000s, aged 16+)	2,452	± 81	-26	± 87	-23	± 111
Unemployment rate (aged 16+)	7.7%	± 0.3	-0.1	± 0.3	-0.1	± 0.4
Economically active (000s, aged 16+)	31,731	± 148	24	±127	286	± 196
Economic activity rate (aged 16-64)	76.8%	± 0.3	-0.1	± 0.3	0.1	± 0.5
Economically inactive (000s, aged 16-64)	9,329	± 138	32	± 119	-11	± 183
Economic inactivity rate (aged 16-64)	23.2%	± 0.3	0.1	± 0.3	-0.1	± 0.5
Redundancies (000s, aged 16+)	144	± 19	16	± 26	-15	± 28

#### Sampling variability of Labour Force Survey estimates of employment by country of birth and nationality: January to March 2011

		Sampling
	Level	variability
UK born people in employment (000s, aged 16+)	25,089	± 178
UK born employment rate (aged 16-64)	71.0%	± 0.4
Non UK born people in employment (000s, aged 16+)	4,044	± 115
Non UK born employment rate (aged 16-64)	67.3%	± 1.1
UK nationals in employment (000s, aged 16+)	26,636	± 173
UK nationals employment rate (aged 16-64)	70.7%	± 0.4
Non UK nationals in employment (000s, aged 16+)	2,501	± 99
Non UK nationals employment rate (aged 16-64)	67.8%	± 1.4

#### Sampling variability of regional Labour Force Survey estimates: March to May 2011

			Economic	Economic		
	Employment	Unemployment	activity	inactivity	Employment	Unemployment
	level, aged 16	level, aged 16	level, aged	level, aged	rate, aged 16	rate, aged 16
	and over	and over	16 and over	16 to 64	to 64	and over
	(thousands)	(thousands)	(thousands)	(thousands)	(%)	(%)
North East	± 32	± 17	± 30	± 35	± 1.8	± 1.3
North West	± 53	± 28	± 49	± 59	± 1.2	$\pm0.8$
Yorkshire & The Humber	± 48	± 24	± 47	± 57	± 1.4	$\pm~0.9$
East Midlands	± 36	± 19	± 34	± 45	± 1.4	$\pm0.9$
West Midlands	± 48	± 25	± 44	± 53	± 1.3	$\pm0.8$
East of England	± 46	± 23	± 43	± 49	± 1.2	$\pm0.8$
London	± 64	± 36	± 60	± 67	± 1.1	± 0.8
South East	± 55	± 25	± 51	± 60	± 1.0	± 0.6
South West	± 46	± 21	± 43	± 51	± 1.3	± 0.8
Wales	± 33	± 16	± 30	± 38	± 1.7	± 1.1
Scotland	± 44	± 22	± 40	± 48	± 1.3	± 0.8

#### Sampling variability of Average Weekly Earnings (AWE) estimates

- The sampling variability of the whole economy single month AWE growth rates (95 per cent 10. confidence interval) are as follows:
- +/- 0.6 percentage points for regular pay (excluding bonuses) for all months.
- +/- 0.7 percentage points for total pay (including bonuses) from April to November
- +/- 0.9 percentage points for total pay from December to March

Sampling variability information for earnings growth at sector and industry level are published in the Average Weekly Earnings Supplementary tables at:

http://www.statistics.gov.uk/statbase/product.asp?vlnk=14015

#### Sampling variability of Vacancy Survey estimates

The sampling variability of the three month average vacancies level (95 per cent confidence 11. interval) is around  $\pm$  1.5 per cent of that level. Further information on sampling variability for the vacancy survey is available from the Report on the Triennial Review of the Vacancy Survey which is available at:

http://www.statistics.gov.uk/downloads/theme\_other/VacancyTriennialReviewReport2009a.pdf

#### Seasonal adjustment

12. Like many economic indicators, the labour market is affected by factors that tend to occur at around the same time every year; for example school leavers entering the labour market in June and whether Easter falls in March or April. In order to compare movements other than annual changes in labour market statistics, such as since the previous quarter or since the previous month, the data are seasonally adjusted to remove the effects of seasonal factors and the arrangement of the calendar. All series in this Statistical Bulletin are seasonally adjusted except where otherwise stated.

#### **National Statistics website**

The launch of the new ONS website on 28 August 2011 will bring changes to the design and format of statistical bulletins. The bulletin main body will be in html and pdf format but detailed data tables will be available as Excel spreadsheets only. The new website will improve the way users can access our statistics but many existing bookmarks and links will no longer work and users will need to update them. Find out more at:

http://www.ons.gov.uk/about/what-we-do/programmes---projects/web-development/index.html

#### **Publication policy**

- Details of the policy governing the release of new data are available from the Media Relations Office. Also available is a list of the names of those given pre-publication access to the contents of this Statistical Bulletin.
- National Statistics are produced to high professional standards set out in the Code of Practice for Official Statistics. They undergo regular quality assurance reviews to ensure that they meet customer needs. They are produced free from any political interference.
- © Crown Copyright 2011.

#### **INDEX OF TABLES**

Not seasonally adjusted tables are indicated by "NSA". All other tables are seasonally adjusted.

#### **SUMMARY**

- 1 Summary of headline Labour Force Survey indicators
- 1a Summary of other headline indicators
- 2 Labour market status by age group

#### **EMPLOYMENT AND JOBS**

- 3 Full-time, part-time and temporary workers
- 4 Public and private sector employment
- 4(1) Public sector employment by industry
- 4(2) Public sector employment including and excluding financial corporations
- 5 Workforce jobs
- 6 Workforce jobs by industry
- 7 Actual weekly hours worked
- 7(1) Usual weekly hours of work
- 8 Employment levels by country of birth and nationality (NSA)
- 8(1) Employment rates (aged 16 to 64) by country of birth and nationality (NSA)

#### **UNEMPLOYMENT**

9 Unemployment by age and duration

#### **CLAIMANT COUNT**

- 10 Claimant count levels and rates
- 10(1) Claimant count: lone parent claimants by age of youngest child (NSA)
- 11 Claimant count by age and duration

#### **ECONOMIC ACTIVITY AND INACTIVITY**

- 12 Economic activity by age group
- 13 Economic inactivity: reasons
- 14 Educational status, economic activity & inactivity of young people

#### **EARNINGS, PRODUCTIVITY & UNIT WAGE COSTS**

- 15 Average weekly earnings total pay
- 15(1) Average weekly earnings bonus pay
- 16 Average weekly earnings regular pay
- 17 Productivity and unit wage costs

#### **REGIONAL AND INTERNATIONAL SUMMARY**

- 18 Regional labour market summary
- 19 International comparisons

#### **LABOUR DISPUTES**

20 Labour disputes (NSA)

#### **VACANCIES**

- 21 Vacancies by size of business
- 21(1) Vacancies and unemployment
- 22 Vacancies by industry

#### **REDUNDANCIES**

- 23 Redundancies levels and rates
- 24 Redundancies by industry (NSA)

#### **BENEFITS**

25 Key out of work benefits (NSA)

#### **SUMMARY**

Source: Labour Force Survey

Labour market statistics enquiries: labour.market@ons.gov.uk

- 1. The Labour Force Survey (LFS) is a survey of the population of private households, student halls of residence and NHS accommodation.
- 2. The headline employment rate is the number of people aged 16 to 64 in employment divided by the population aged 16 to 64.
- 3. The headline unemployment rate is the number of unemployed people (aged 16+) divided by the economically active population (aged 16+). The economically active population is defined as those in employment plus those who are unemployed.
- 4. The headline inactivity rate is the number of economically inactive people aged 16 to 64 divided by the population aged 16 to 64.

#### Note on headline employment, unemployment and inactivity rates

The headline employment and inactivity rates are based on the population aged 16 to 64 but the headline unemployment rate is based on the economically active population aged 16 and over. The employment and inactivity rates for those aged 16 and over are affected by the inclusion of the retired population in the denominators and are therefore less meaningful than the rates for those aged from 16 to 64. However, for the unemployment rate for those aged 16 and over, no such effect occurs as the denominator for the unemployment rate is the economically active population which only includes people in work or actively seeking and able to work.

#### Note on headline employment, unemployment and inactivity levels

The headline employment and unemployment levels are for those aged 16 and over; they measure all people in work or actively seeking and able to work. However, the headline inactivity level is for those aged 16 to 64. The inactivity level for those aged 16 and over is less meaningful as it includes elderly people who have retired from the labour force.

Source: Labour Force Survey Labour market statistics enquiries: labour.market@ons.gov.uk

The split between full-time and part-time employment is based on respondents' self-classification.
 These series cover Employees and Self-employed only. These series include some temporary employees recorded in columns 13 to 19.
 The total includes those who did not give a reason for working part-time and it therefore does not equal the sum of columns 21, 23, 24 and 25.

Source: returns from public sector organisations

- 1. This series includes publicly owned financial corporations. Royal Bank of Scotland Group plc and Lloyds Banking Group plc are classified to the public sector from 13 October 2008. They are therefore included in the public sector estimates from December 2008 onwards but not for earlier periods.
- 2. Estimated as the difference between LFS total employment and the data from public sector organisations.
- 3. LFS employment data for March refer to February-April, June refers to May-July, September refers to August-October and December refers to November-January.
- 4. This series excludes locally engaged staff stationed outside the United Kingdom.
- 5. This series excludes the Northern Ireland Civil Service.
- 6. This series does not exactly equal the sum of columns 1 to 4 and 6 to 9 because each series is independently seasonally adjusted.
- 7. This series includes publicly owned financial corporations, excluding insurance and pension funding, as defined by Section 64 of Standard Industrial Classification 2007.

More detailed estimates are available in the Public Sector Employment Statistical Bulletin at:

Workforce jobs enquiries 01633 456776 Sources: Employer surveys, Labour Force Survey and administrative sources

<sup>1.</sup> Workforce Jobs figures are a measure of jobs rather than people. For this reason estimates of self-employment jobs and government supported trainee jobs differ from estimates of people in self-employment and in government supported training and employment programmes shown at Table 3 of this Statistical Bulletin.

2. This series is not exclusively a public sector series as it includes some private sector jobs. See table 4 of this Statistical Bulletin for estimates of public and private sector employment.

<sup>1.</sup> The claimant count measures the number of people claiming Jobseeker's Allowance.

The level measures the number of claimants on the second Thursday of each month (the "count date").

The flows figures are collected for 4 or 5 week periods between count dates; the figures are then standardised to a  $4^{1}/_{3}$  week month. The levels and flows are independently seasonally adjusted. For these reasons, movements in the flows do not tally exactly with movements in the levels.

More detailed estimates are available from Nomis® at:

http://www.nomisweb.co.uk

Source: Jobcentre Plus administrative system and HM Revenue & Customs child benefit data Labour market statistics enquiries: labour.market@ons.gov.uk

- 1. Lone Parents are defined as those claiming Child Benefit for at least one child aged under 16 at the Jobseeker's Allowance (JSA) count date (second Thursday of the month) who have their marital status recorded as single, widowed, divorced or separated.
- 2. Age of youngest child relates to the age of the youngest child at the JSA count date.
- 3. These figures are experimental statistics and may be subject to retrospective changes as and when the Department for Work and Pensions (DWP) receive updated Child Benefit data.
- 4. The number of people claiming JSA in Great Britain. These figures are different from the figures at table 10 (series BCJA) which relate to the UK. Series BCJA (shown at Table 10) and BCJG (shown above) also include clerical claims which are not used in producing the subsequent lone parent series and are therefore slightly different to JSA figures published by the DWP on similar tables in their publications.
- 5. Some JSA claimants have their marital status coded as "not known". Such claimants who are claiming Child Benefit for at least one child aged under 16 may be lone parents but are not recorded as such in the above table.

The estimates for Lone Parent claimants shown in the above table are produced a month later than the Claimant Count estimates shown at table 10 of this Statistical Bulletin.

From 24 November 2008 most lone parents with older children are no longer entitled to Income Support if they are only claiming it because they are a lone parent. Instead those able to work may be entitled to claim Jobseeker's Allowance. This change has been introduced for most lone parents with (i) a youngest child aged 12 or over from 24 November 2008, (ii) a youngest child aged 10 or over from 26 October 2009, (iii) a youngest child aged 7 or over from 25 October 2010.

Further estimates of lone parents claiming JSA are available from DWP at

http://statistics.dwp.gov.uk/asd/

# Months where there are 5 weeks between count dates. All the rest are 4 week periods.

Source: Labour Force Survey

<sup>1.</sup> Not in full-time education includes people in part-time education and/or some form of training. Estimates of the number of young people who are not in employment, education or training ("NEET") cannot therefore be derived from this table.

<sup>2.</sup> People in full-time education are employed if they have a part-time job or unemployed if they are looking for part-time employment.

<sup>3.</sup> Denominator = all persons in the relevant age group for economically active, total in employment and economically inactive; economically active for unemployment.

Source: Labour Force Survey Labour market statistics enquiries: labour.market@ons.gov.uk

1. Labour Force Survey is tabulated by region of residence.

<sup>2.</sup> Denominator = all persons aged 16 to 64.

<sup>3.</sup> Denominator = Total economically active.

<sup>4.</sup> Quarter on quarter changes at regional level are particularly subject to sampling variability and should be interpreted in the context of changes over several quarters rather than in isolation.

Sources: Furostat, national statistical offices

- 1. The UK employment rate shown in the lower part of the table as published by the Office for National Statistics - is seasonally adjusted; all other employment rates are unadjusted.
- 2. All employment rates for EU countries published by EUROSTAT (including the rate for the UK) are based on the population aged 15-64. The rates for Canada and Japan are also based on the population aged 15-64, but the rate for the US is for those aged 16-64. The employment rate for the UK published by the Office for National Statistics is based on the population aged 16-64.
- 3. Unemployment rates published by EUROSTAT for most EU countries (but not for the UK), are calculated by extrapolating from the most recent LFS data using monthly registered unemployment data. A standard population basis (15-74) is used by EUROSTAT except for Spain, Italy and the UK (16-74). The unemployment rate for the US is based on those aged 16 and over, but the rates for Canada and Japan are for those aged 15 and over. All unemployment rates are seasonally adjusted.
- 4. The unemployment rate for the UK published by EUROSTAT is based on the population  $\frac{1}{2}$ aged 16-74 but the unemployment rate for the UK published by the Office for National Statistics is based on those aged 16 and over. There are other minor definitional differences.
- 5. The "Total EU" series consist of all 27 EU countries. The Eurozone figures consist of the following EU countries: Austria, Belgium, Cyprus, Estonia, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, Malta, Netherlands, Portugal, Slovak Republic, Slovenia and Spain.
- 6. The Japanese employment rate for January-March 2011 and the unemployment rate from January 2009 onwards exclude those regions of Japan affected by the March 2011 earthquake and tsunami.

Source: ONS Labour Disputes Inquiry

- Labour disputes enquiries 01633 456724
- 1. Estimates of working days lost and workers involved are shown to the nearest thousand. Unrounded estimates of less than 500 therefore round to zero.

  2. Due to rounding the working days lost for the public and private sectors may not add up to the total working days lost.
- 3. The latest 12 month cumulative totals for the figures in these columns will not necessarily equal the sum of the 12 months as some disputes continue for over one month. These disputes appear in each month's data, but only once in the total.
- 4. These series exclude disputes which do not result in a stoppage of work, those involving fewer than ten workers or lasting less than one day unless the total number of working days lost in the dispute is 100 or more.

<sup>\*</sup> Change on previous non-overlapping three month rolling average time period.

<sup>1.</sup> Excludes Agriculture, Forestry and Fishing.

<sup>2.</sup> Unemployment estimates are produced from the Labour Force Survey (LFS) and are always one period behind the ONS Vacancy Survey estimates. This table therefore shows estimates for the same periods as shown in table 1 (which shows LFS estimates).

United Kingdom (thousands), seasonally adjusted

		All vacancies <sup>1</sup>	Mining & quarrying	Manu- facturing	Electricity, gas, steam & air conditioning supply <sup>2</sup>	Water supply, sewerage, waste & remediation activities <sup>2</sup>	Construction	Wholesale & retail trade; repair of motor vehicles and motor cycles	Transport & storage	Accommoda- tion & food service activities	Information & communica-tion

Change %	-9.7		-24.3		21.9		

Source: Labour Force Survey

Labour market statistics enquiries: labour.market@ons.gov.uk

- 1. The redundancy rate is the ratio of the redundancy level for the given quarter to the seasonally adjusted number of employees in the previous quarter, multiplied by 1,000.
- 2. The redundancies levels as derived directly from the Labour Force Survey do not currently display seasonality. For this reason series BEAO is currently identical to the not seasonally adjusted series BEYV shown at Table 24.

## 24 Redundancies by industry<sup>1</sup>

United Kingdom (thousands of people aged 16 and over), not seasonally adjusted

	Total redundancies²	Manufacturing	Construction	Wholesale & retail trade; repair of motor vehicles and motor cycles	Transport & storage, accommodation & food service activities, information & communication	Financial & insurance and real estate activities	Prof. scientific & technical activities, admin & support service activities		Total services⁴

Labour market statistics enquiries: labour.market@ons.gov.uk

- 1. The estimates in this table are for calendar quarters only whereas the estimates at Table 23 are for rolling three-monthly time periods.
- 2. The total series includes those people who did not state their industry. The series also includes SIC 2007 categories A (Agriculture, forestry and fishing), B (Mining and quarrying), D (Electricity, gas, etc.) and E (Water supply, sewerage, etc.). These sectors are not shown separately in this table as the sample size is too small to provide reliable estimates. See footnote 2 at Table 23.
- 3. Includes both public and private sectors.
- 4. Other Services are not shown separately in this table as the sample size is too small to provide reliable estimates.

Further redundancy estimates, including data for redundancy rates by industry, region, and age group and re-employment rates by age group are available at: www.statistics.gov.uk/STATBASE/Product.asp?vlnk=9474

Source: Dept. for Work & Pensions (DWP)

- 1. This table includes the key out of work statistical groups, showing all claimants. Carers, who are not subject to labour market activation policies in the same way as other groups, are not included.
- 2. Claimants have been assigned to a statistical group according to a hierarchy to avoid double counting of claimants. The order is shown in the table (ie, Jobseeker followed by incapacity benefits, etc.). For example, a person claiming both incapacity benefits and Lone Parent benefit will be recorded under the former but not the latter.
- 3. The estimates for Jobseekers claimants shown in this table are for Great Britain (GB) and are consistent with the not seasonally adjusted estimates for the United Kingdom shown at Table 10 (Claimant Count) of this Statistical Bulletin. However, the figures are different from the estimates of jobseekers claimants shown at Table 1.1 of the Dept. for Work & Pensions (DWP) Quarterly Statistical Summary. This is because of methodological differences between the Benefits estimates produced by the DWP and the Claimant Count estimates produced by the Office for National Statistics.
- 4. "Jobseekers" are recipients of Jobseeker's Allowance.
- 5. This series includes claimants of Employment and Support Allowance, Incapacity Benefit and Severe Disablement
- 6. "Lone parents" are single recipients of Income Support with a child under qualifying age.
- 7. "Other Income related" covers recipients of Income Support or Pension Credit who are not included in "incapacity benefits" or "Lone parents".
- 8. Proportions of population receiving state benefits have been calculated using residence based populations for those aged 16 to 64 for both men and women. The age at which women reach state pension age has been gradually increasing from 60 since April 2010. Movements in the time series over this period will partly reflect these changing eligibility criteria.
- 9. The jobseekers proportions shown in this table are different from the non seasonally adjusted claimant count rate shown at Table 10 of this Statistical Bulletin as the denominator for the latter is workforce jobs plus claimant count.
